Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Nancy T. Krawczyk on 1/29/2010. Support for the amendment is found in the specification in paragraphs [0039], [0122] and [0200].

In the claims:

In claim 32, line 4, before "hydrofluorocarbon(s)" insert -- non-aryl --.

In claim 59, line 4, before "hydrofluorocarbon(s)" insert -- non-aryl --.

Reasons for Allowance

2. The Appeal Brief filed 11/11/2009 has been fully considered and found to be persuasive in part. In *ARGUMENT* section 1, appellants argue that maintaining the rejection is impermissible in view of MPEP 804 I.B.1. However, the cited section is preceded by the following passage:

The "provisional" double patenting rejection should continue to be made by the examiner **in each application** as long as there are conflicting claims in more than one application unless that "provisional" double patenting rejection is the only rejection remaining in at least one of the applications. (emphasis added)

Furthermore, MPEP 1490 V.D. states in part:

Art Unit: 1796

If two (or more) pending applications are filed, in each of which a rejection of one claimed invention over the other on the ground of provisional **>nonstatutory< double patenting (ODP) is proper, the >provisional< ODP rejection will be made in each application. If the >provisional< ODP rejection is the only rejection remaining in the earlier-filed of the two pending applications, (but the later-filed application is rejectable on other grounds), the examiner should then withdraw *the provisional ODP< rejection and permit the earlier-filed application to issue as a patent without a terminal disclaimer. If the >provisional< ODP rejection is the only rejection remaining in the later-filed application, (while the earlier-filed application is rejectable on other grounds), a terminal disclaimer must be required in the later-filed application, before the >provisional< ODP rejection can be withdrawn. (emphasis added)

Accordingly, the policy of withdrawing a provisional obviousness-type double patenting rejection as the sole remaining issue appears to be specifically addressed in the MPEP only for the scenario wherein two applications contain a provisional obviousness-type double patenting rejection, each over claims of the other. In this case, no rejections exist in the copending applications over this application. However, upon further consideration, it is reasonable to conclude that the intent of the MPEP guidance is to also include the scenario wherein only a one-way provisional obviousness-type double patenting rejection has been made. Accordingly, the provisional rejections are withdrawn as the sole remaining issue.
